Glossary of Terms

Active Users

We define Active Users as registered users of at least one registered connected machine who have utilized their connected machine to create a project in the last 365 days. One user may own multiple registered connected machines but is only counted once if that user registers those connected machines by using the same email address. If possession of a connected machine is transferred to a new owner and registered by that new owner, the new owner is added to the total Active Users and the prior owner is removed from the total Active Users if the prior owner does not own any other registered connected machines. Active Users is a key indicator of the health of our business, because changes in the number of Active Users excludes non-users to better represent opportunities for us to drive additional platform and accessories and materials revenue.

90-Day Engaged Users

We define 90-Day Engaged Users as registered users of at least one registered connected machine who have utilized their connected machine to create a project in the last 90 days. One user may own multiple registered connected machines but is only counted once if that user registers those connected machines by using the same email address. If possession of a connected machine is transferred to a new owner and registered by that new owner, the new owner is added to the total 90-Day Engaged Users and the prior owner is removed from the total 90-Day Engaged Users if the prior owner does not own any other registered connected machines. 90-Day Engaged Users excludes non-users to better represent opportunities for us to drive additional platform and accessories and materials revenue.

Paid Subscribers

We define Paid Subscribers as the number of users with a subscription to Cricut Access or Cricut Access Premium, excluding cancelled, unpaid or free trial subscriptions, as of the end of a period. Paid Subscribers is a key metric to track growth in our Platform revenue and potential leverage in our gross margin.

Platform ARPU

We define Platform ARPU as Platform revenue in a 12-month period divided by Active Users. Platform ARPU allows us to forecast Platform revenue over time and is an indicator of our ability to expand with users and of user engagement with our subscription offerings.
